Elected Members' Allowances

Allowances are determined in accordance with the Local Government Act 1999 and the Local Government (Members Allowances and Benefits) Regulations 2010.

Annual Allowances as at 30 June 2014:

Mayor \$22,136.00
 Deputy Mayor \$6,917.50
 Elected Member \$5,534.00

In accordance with the Local Government (Members Allowances and Benefits) Regulations 2010 members are reimbursed for prescribed out-of-pocket expenses incurred while representing Council on official duties.

Allowances are determined by the Remuneration Tribunal which is outside the control of Council and appointed by State Government. Allowances are indexed annually.

Senior Executive

Four (4) Senior Executives are employed on a negotiated contract basis. The contracts do not provide bonuses, but some contracts include an allowance for telephone, reimbursement of work related call costs made from that telephone, internet and the use of a Council provided motor vehicle for business and private use. Refer to page 18 for further clarification.

Use of Confidentially Provisions

All Council and Council Committee meetings are open to the Public.

Section 90(2)& (3) of the Local Government Act 1999 provides Council with the authority to consider certain defined matters on a confidential basis and specify a time period for review of the confidentiality order.

The following table summarises the use (Section 90(2)) and release (Section 91(7)) of matters considered in confidence under Section 90(2) of the Local Government Act 1999 since the last Annual Report:

MAYOR'S REPORT

I am pleased to present to you The Flinders Ranges Council Annual Report 2013-2014. It's always a reality check to critically assess over the reporting year what Council has achieved and hasn't achieved or perhaps made as much progress on as desired. As we once more look back over the last 12 months – the achievements and challenges, projects and problems – it's apparent how much the contribution and input of individuals and small groups helped the community achieve tremendous results. The work and functions of Council are supported and multiplied in so many areas by the inputs of volunteers and volunteer groups for the benefit of us all. The Hawker Community Sports Centre Committee has replaced its bowling greens, while the Quorn Community Sporting Association has completed the new netball/tennis courts and a shelter/shade structure at the Quorn Town Oval, just two major achievements of our volunteer groups. We remain well served by a number of other organisations which include the Powell Gardens group and the Hawker Revegetation group, our junior sports clubs, as well as the CFS and SES brigades. We'd be lost without them all, so thank you to all who contribute.

This year has seen some significant progress on a number of key projects in Council's current planning program. We have seen completion of the third stage of the Arden Vale Road sealing project, as well as the sealing of the car park areas at Hawker's "sporting precinct" (the consolidated swimming pool, tennis courts and Sports Centre/bowls complex) which, with the ongoing work of the Hawker Revegetation Group, has created a much more welcoming entrance and mitigated the previous dust concerns. With work continuing on the Hawker Water Quality project (Desalination plant) through SA Water, and the eventual clean up and rehabilitation of the old swimming pool site we think there's plenty happening to be proud of, and positive about.

Refurbishment is also well under way at the Quorn pool, with a significant project to revive the facility after over 50 years in service. It is important to maintain the vital social and recreational facility that the swimming pools provide to our towns. The Hawker pool is proving to be a tremendous (and popular) facility with ongoing improvements to amenities there. Having both pool facilities upgraded and modernised will be a long-term social asset for all our community.

Council is anticipating a period of some consolidation over the coming years with the completion of these major projects and the substantial reduction in grant funding opportunities from Federal and State Governments. Funding for Council to leverage with our ratepayer resources is therefore greatly reduced. As a small rural council, we are dependent on external funding support to assist us with significant infrastructure projects which will improve our communities. If these are not available, we focus on improvements and maintenance upgrades to existing facilities to generate the most cost-effective return on our limited resources, thereby maximising the usability and lifespan of Council assets. Council has been quite successful in recent years benefitting to a large degree from external grant funding support which enabled Council to undertake infrastructure projects of a scale which couldn't be contemplated using only rates. Projects such as Arden Vale Road, Kanyaka Surgery, Hawker Airport, Energising The Flinders, Quorn Railway Station refurbishment with PRRPS, Quorn Tennis /Netball Courts and both swimming pools being highlights.

The Federal Budget removed, reduced or froze a number of crucial ongoing funding streams to Local Government bodies. This has resulted in a very real reduction in our income for years to come, particularly in roads funding. We will be very vigilant in monitoring our costs to ensure we are able to continue providing the required and expected level of services for our community within these funding constraints.

ANNUAL REPORT

Version Number Issued Last Review Next Review GDS

6 October 2009 October 2014 October 2015 18.68.1.1

Other items which were included in the works program, besides the usual roads (resheeting, patrol and maintenance grading) and town services (parks and gardens, halls and public amenities) were some playground and shading upgrades as well as an unusual amount of mowing and slashing, a by-product of the more promising start to the season!

Council undertook a Strategic Directions Report process during the year, a legislative requirement, but also an opportunity to consider where current planning regulation was not achieving what our community desires or needs. A number of submissions, most relating to development in the rural and rural fringe areas, were received and considered. The Strategic Directions Report has been completed and will inform a substantial review of the Development Plan in these areas in the coming year.

I'd like to acknowledge and thank all our staff, office and works, for their commitment and efforts again this year, and also acknowledge the commitment and effort of all the Elected Members, including Councillor Katie Walsh who resigned in January 2014 to move overseas with her family after a number of years of dedicated service as a Councillor, and I thank them for their input and dedication. As this report is finalised, the periodic election is looming and some of the current members have indicated they will not be standing. Others may not be returned if we record sufficient nominations, which reflects the democratic process we enjoy. As occurred at the beginning of this term 4 years ago, the loss of experience and understanding of the Local Government environment will be balanced by incoming new members with fresh ideas, a new approach and renewed enthusiasm to represent the interests of their community.

On behalf of The Flinders Ranges Council, I wish to thank our residents and ratepayers, the community we work for and represent, for your input, support and confidence in us as your elected body and remain confident the new Council will be shown the same support. It's a great place to live, work and play. Council is trying to make it a better place for all of our residents, with access to all the amenities and facilities we need to enjoy life in our magnificent and spectacular environment.

OFFICERS' REPORTS

Chief Executive Officer

The 2013-2014 year has proved to be another good year of achievements for The Flinders Ranges Council. The Mayor has previously highlighted some of these such as Arden Vale Road construction and sealing; Hawker Desalination Plant; new Tennis / Netball Courts and Quorn Swimming Pool replacement to name a few.

The 2013-2014 financial year was yet again very demanding for staff with the State Government continuing the introduction of new legislation which adds additional cost and compliance requirements for Council and ultimately ratepayers. There is yet more changes to come as the State Government looks at new ways to raise their revenue at the expense of Local Government and ratepayers. This ongoing "cost-shifting" by the State Government continues to be a burden on the community through increased rates and, to a lesser degree, increased fees and charges.

I thank all staff for their continued dedication and hard work in serving The Flinders Ranges Council community. Their efforts to improve the lives of others is very much appreciated by myself, the elected body and the community in general. I look forward to continued support in improving services and infrastructure in our community.

Council communicates with its community through the monthly Newsletters, Council's website and Council's Facebook page. Council also advertises and places articles in the Quorn Mercury, Hawker Town Crier, Flinders News and Transcontinental on a regular basis.

Public consultation undertaken during the year included the Annual Business Plan 2014-2015, Budget 2014-2015 and Long Term Financial Plan 2014-2034; a range of updated Council policies and Terms of Reference; Elector Representation Report; Strategic Directions Report and old Hawker Pool Site.

Council undertook corporate services work for both the District Council of Orroroo Carrieton and Outback Community Authority during the year. Council supported the Flinders Shared Services Group utilising a shared Environmental Health Officer, but this service was withdrawn by District Council of Mount Remarkable and the shared Development Officer resigned. Northern Passenger Transport Network continues as a shared resource. Council also shares the costs of running Northern Waste Management Service with the District Council of Orroroo Carrieton. Council remains committed to seeking collaborative opportunities through both the Flinders Shared Services Group and other mechanisms to both increase services and save costs.

Council has continued to be very successful in obtaining grants in 2013-2014, most of which were competitive. The Flinders Ranges Council is one of the few councils around Australia that has secured two Regional Development Australia Fund grants (received \$831,520 in the first round Regional Development Australia Fund for the Energising the Flinders project and \$500,000 in Round 3 for refurbishment of the Quorn and District War Memorial Swimming Pool); \$1,067,000 from Special Local Roads Grant for Stage Three of Arden Vale Road upgrade; and various smaller grants totalling over \$150,000. Council also supported several successful grant applications on behalf of sporting and community groups, the most noticeable of which was for the Quorn Community Sporting Association application for relocation of tennis and netball courts for \$200,000. Council actively seeks additional funding opportunities to enhance Council's sustainable provision of infrastructure and services and improve the quality of life for its residents and businesses.

6 October 2009 October 2014 October 2015 18.68.1.1

The Flinders Ranges Council supports a range of community events which attract many people to the Council district. Some of the major events proudly supported/sponsored by Council are Hawker Races; Quorn Races; Pichi Richi Marathon; Quorn Agricultural Show; Quorn Produce Market and Hawker Craft Market.

In addition Council provides ongoing support to the film industry and actively promotes the region as an ideal location for filming.

The Elected Members strive to improve services and infrastructure with a limited budget, which at times is a hard balancing act between services, infrastructure and rates. The Elected body is keen to keep the community engaged in the decision making process and has always welcome community input.

As the term of the current Elected Body comes to an end, I will take this opportunity to thank each member for their deliberations during the last 4 years, noting that their achievements are considerable as outlined in this and previous Annual Reports.

Finally, the sustainable provision of a wide range of services and the maintenance of infrastructure remains a key challenge for our Council, which continues to pursue alternative service delivery models including shared services.

Strategic Directions Report

Council commenced a Strategic Directions Report in December 2013. Section 30 of the Development Act 1993 requires that all Councils in South Australia prepare a Strategic Directions Report addressing the strategic planning issues for the region, identifying amendments to the Development Plan, and setting out Council's priorities with respect to land use planning, transport and infrastructure provision, and the delivery of the relevant strategies and targets contained within the Planning Strategy.

Every Council must prepare or update their Strategic Directions Report on a regular basis, in particular following an alteration to the South Australian Planning Strategy (ie publication of the Far North Plan in 2010).

ANNUAL REPORT

Version Number Issued Last Review Next Review GDS

6 October 2009 October 2014 October 2015 18.68.1.1

The Strategic Directions Report is the key instrument which allows a Council to outline a vision for growth in the Council and establish a concurrent set of priority actions for planning policy change. This is primarily achieved by means of a program of Development Plan Amendments (DPAs) to transcribe envisaged policy into Development Plan provisions. In particular, the Strategic Directions Report should identify the council's priority actions for:

- achieving orderly and efficient development through the implementation of planning policies
- integrating transport and land-use planning within its area
- implementing the relevant policies and targets in the Planning Strategy
- implementing the affordable housing policies in the Planning Strategy
- infrastructure planning (including both physical and social infrastructure)
- any other projects or initiatives considered to be of strategic importance by the council. (See section 30 (2) (b) and (1) (c) of the Development Act 1993 for further information)

Consultants, URS, were appointed by Council and conducted workshop sessions on several occasions with Mayor, Councillors and key staff. Public Meetings were held in Hawker and Quorn in early June 2014 to discuss the draft Strategic Directions Report. At the end of June 2014, the Strategic Directions Report was nearing completion. Once the Strategic Directions Report is complete, it is envisaged that Council will undertake a full review Development Plan Amendment.

Referral

Council referred 1 application to the Flinders Ranges Development Assessment Panel, which was approved.

Phillip Denniston
Development Officer

Environmental Health Officer

In July 2013, the services of Mark Smith, Council's Environmental Health Officer, was withdrawn. The position was filled on a part-time basis by consultant, Chris Hunt. Chris attended the region 1 day per month to undertake business inspections and septic tank applications. Phil Denniston commenced in early June 2014.

Key statistics for the 2013-2014 Financial Year:

- 31 inspections conducted with a majority of all High Risk Food Businesses inspected.
- No written warning issued
- 3 Legionella inspections were conducted
- 6 waste water applications were approved.

Due to the remoteness and services availability within our regional Council district the Council offers for sale digital food thermometers for use by food businesses throughout the area. These temperature measure devices meet with requirements of the Food Standards. The service is well received by food business operators in remote areas.

Public Consultation

The Flinders Ranges Council has adopted a Public Consultation Policy in accordance with Section 50 of the Local Government Act, 1999. This policy was formally reviewed by Council on 14 August 2012.

The following steps will be taken by Council to fulfil the requirements of the Public Consultation Policy. Council's management executive, in consultation with Council as deemed necessary, will:

- identify stakeholders relevant to the consultation topic;
- decide the key messages to deliver to stakeholders;
- identify the parameters of the consultation initiative, that is, what aspects of the decision can be influenced:
- identify a range of appropriate options for communicating information to stakeholders and inviting involvement "the communication strategy";
- identify a range of appropriate consultation initiatives "the consultation strategy";
- identify contact person(s) for interested parties to obtain further information;
- identify timeframes relevant to the consultation initiative. Council will aim to provide 14
 days notice of any consultation forums or opportunities, and ensure a period of 21 days
 is allocated from the date of inviting involvement to the final closing date for
 submissions;
- determine responsibility for:
 - implementing the communication and consultation strategy;
 - reporting to Council on the outcomes;
 - providing feedback about the decision to participants; and
 - ensuring appropriate records are kept.

Internal Review of Council Decisions

The Flinders Ranges Council is committed to transparent decision-making processes, and to providing access to a fair and objective procedure for the internal review of decisions.

Grievances may arise as a result of dissatisfaction with a decision about a policy, procedure, service or fee. All attempts will be made to resolve grievances quickly and efficiently, without the need for formal applications for review to be lodged. Sometimes this cannot be achieved. Council's Internal Review of Council Decisions Policy provides guidance for dealing with formal requests for internal review of decisions of Council, its employees, and other people acting on behalf of the Council.

Dealing with grievances at the local level is the most effective way of resolving matters quickly. Applicants for review of decisions will be encouraged to participate in the review handling process co-operatively. However, this will not negate citizens' rights to seek external review through the State Ombudsman, other legal appeal processes, or the Courts at any time during the internal review process.

The Flinders Ranges Council's Internal Review of Council Decisions Policy, has been adopted in accordance with Section 270 of the Act. This policy was formally reviewed by Council on 14 August 2012 and is one aspect of Council's customer focused approach to service delivery. It provides a further opportunity to review the way Council provides services to the community, and to identify areas for improvement.

The following diagram demonstrates the review processes available to the applicant for the review of Council decisions.

During 2013-2014 reporting year, Council received no request for the Internal Review of Council Decision under Section 270 of the Local Government Act 1999.

Freedom of Information

A member of the public may make a request under the Freedom of Information Act 1991 for access to documents.

To gain access to these Council records, a member of the public must complete a Freedom of Information request application outlining the records that they wish to inspect and pay the prescribed fee.

During the 2013-2014 reporting year, Council received two requests under the Freedom of Information Act 1991.

Amendment of Council Records

A member of the public may gain access to Council documents to make amendments concerning their personal affairs by making a request under the Local Government Act 1999 or the Freedom of Information Act 1991 depending on the document that requires correction. A member of the public may then request a correction to any information about themselves that is incomplete, incorrect, misleading or out-of-date.

To gain access to these Council records, a member of the public must complete a Freedom of Information request application as indicated above outlining the records that they wish to inspect.

Annual Business Plan

Council has successfully minimised the financial impact of external factors beyond its control in its Annual Business Plan 2013-2014 and has continued to maintain and enhance delivery of all services imposed by the Local Government Act 1999, the Development Act 1993 and other applicable legislation enacted by Federal and State Governments.

Long Term Financial Plan

Council has been moving toward long-term sustainability and increasing its own source income in this light and has continued to maintain and enhance delivery of all services.

Council reviews and updates the Long Term Financial Plan on an annual basis and the first year of the Long Term Financial Plan is the current year's budget.

Community Land Management Plan

Council has adopted a Community Land Management Plan in accordance with Section 196 of the Local Government Act 1999. The Management Plan guides Council in the utilisation of community land and buildings. It is available on Council's website.

Auditor's Remuneration

lan MacDonald was paid the sum of eight thousand, five hundred dollars (\$8,500.00) for the 2013-2014 audit of Council's financial statements and processes. Ian McDonald was contracted for 5 years under a competitive tender process in May 2010, with the appointment commencing with the 2010-2011 year audit.

The Auditor's report did not identify any areas of concern or reportable occurrences.

Decision Making Structure

All decisions are the property of the Council. The committees appointed by Council have an advisory function only, and Council officers are empowered to act in accordance with delegations made by Council pursuant to the provisions of the Local Government Act 1999 and associated legislation. Refer to Council Organisation Chart on page 8 for Council's internal decision making structure.

Volunteers

Volunteers are an important and integral part of The Flinders Ranges Council, assisting with the development of Council property and services.

Their contribution is acknowledged and appreciated as is that of all the volunteers engaged in other volunteer organisations across the Council district.

All volunteers make a significant contribution to our communities.

Governance and Community Development

Council has continued its membership of the Central Local Government Region and participated in the regional activities of that organisation.

During the year Council was a member of Regional Development Australia Far North.

Council was also a member of the Flinders Shared Services Group, together with the District Councils of Mount Remarkable, Orroroo Carrieton and Peterborough. However due to the withdrawal of services by District Council of Mount Remarkable, this group is no longer functioning as it did.

Distribution of Information

Council continues to communicate with its residents by regular distribution of newsletters and placement of information notices in local newspapers. Council's website is continuing to be further enhanced for the distribution of information. Council continued to provide information via it's Facebook page during the year.

Council distributes a monthly Newsletter to all residents via an unaddressed mail out and is available on Councils Website www.frc.sa.gov.au

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

CERTIFICATION OF FINANCIAL STATEMENTS

The Mayor and Chief Executive Officer, pursuant to Section 14 of the Local Government (Financial Management) Regulations 2011, have been authorised by The Flinders Ranges Council at the Ordinary Meeting of Council held on 14 October 2014 to certify the financial statements in their final form.

In our opinion:

- ✓ the accompanying financial statements comply with the Local Government Act 1999, Local Government (Financial Management) Regulations 2011 and the Australian Accounting Standards.
- ✓ the financial statements present a true and fair view of the Council's financial position at 30 June 2014 and the results of its operations and cash flows for the financial year.
- ✓ internal controls implemented by the Council provide a reasonable assurance that the Council's financial records are complete, accurate and reliable and were effective throughout the financial year.
- √ the financial statements accurately reflect the Council's accounting and other records.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1 Basis of Preparation

1.1 Compliance with Australian Accounting Standards

This general purpose financial report has been prepared in accordance with Australian Accounting Standards (AAS) as they apply to not-for-profit entities, other authoritative pronouncements of the Australian Accounting Standards Board, Interpretations (e.g. UIGs) and relevant South Australian legislation.

The financial report was authorised for issue by certificate under regulation 14 of the Local Government (Financial Management) Regulations 2011 dated 14 October 2014

1.2 Historical Cost Convention

Except where stated below, these financial statements have been prepared in accordance with the historical cost convention.

1.3 Critical Accounting Estimates

The preparation of financial statements in conformity with AAS requires the use of certain critical accounting estimates, and requires management to exercise its judgement in applying Council's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are specifically referred to in the relevant sections of this Note.

1.4 Rounding

All amounts in the financial statements have been rounded to the nearest dollar.

2 The Local Government Reporting Entity

The Flinders Ranges Council is incorporated under the SA Local Government Act 1999 and has its principal place of business at 1 Seventh Street, Quorn SA 5433. These financial statements include the Council's direct operations and all entities through which Council controls resources to carry on its functions. In the process of reporting on the Council as a single unit, all transactions and balances between activity areas and controlled entities have been eliminated.

Trust monies and property held by Council but subject to the control of other persons have been excluded from these reports. A separate statement of moneys held in the Trust Fund is available for inspection at the Council Office by any person free of charge.

3 Income recognition

Income is measured at the fair value of the consideration received or receivable. Income is recognised when the Council obtains control over the assets comprising the income, or when the amount due constitutes an enforceable debt, whichever first occurs.

Where grants, contributions and donations recognised as incomes during the reporting period were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the amounts subject to those undischarged conditions are disclosed in these notes. Also disclosed is the amount of grants, contributions and receivables recognised as incomes in a previous reporting period which were obtained in respect of the Council's operations for the current reporting period.

Note 1 - Significant Accounting Policies

4 Cash, Cash Equivalents and other Financial Instruments

Cash Assets include all amounts readily convertible to cash on hand at Council's option with an insignificant risk of changes in value with a maturity of three months or less from the date of acquisition.

Receivables for rates and annual charges are secured over the subject land, and bear interest at rates determined in accordance with the Local Government Act 1999. Other receivables are generally unsecured and do not bear interest.

All receivables are reviewed as at the reporting date and adequate allowance made for amounts the receipt of which is considered doubtful.

All financial instruments are recognised at fair value at the date of recognition. A detailed statement of the accounting policies applied to financial instruments forms part of Note 13.

5 Inventories

Inventories held in respect of stores have been valued by using the weighted average cost on a continual basis, after adjustment for loss of service potential. Inventories held in respect of business undertakings have been valued at the lower of cost and net realisable value.

6 Infrastructure, Property, Plant & Equipment

6.1 Initial Recognition

All assets are initially recognised at cost. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition

All non-current assets purchased or constructed are capitalised as the expenditure is incurred and depreciated as soon as the asset is held "ready for use". Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including architects' fees and engineering design fees and all other costs incurred. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Capital works still in progress at balance date are recognised as other non-current assets and transferred to infrastructure, property, plant & equipment when completed ready for use.

6.2 Materiality

Assets with an economic life in excess of one year are only capitalised where the cost of acquisition exceeds materiality thresholds established by Council for each type of asset. In determining (and in annually reviewing) such thresholds, regard is had to the nature of the asset and its estimated service life. Examples of capitalisation thresholds applied during the year are as follows. No capitalisation threshold is applied to the acquisition of land or interests in land.

Office Furniture & Equipment	\$2,000
Other Plant & Equipment	\$2,000
Buildings - new construction/extensions	\$2,000
Park & Playground Furniture & Equipment	\$2,000
Road construction & reconstruction	\$2,000
Paving & footpaths, Kerb & Gutter	\$2,000
Drains & Culverts	\$2,000
Reticulation extensions	\$2,000
Sidelines & household connections	\$2,000
Artworks	\$2,000

6.3 **Subsequent Recognition**

Certain asset classes are revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. Further detail of existing valuations, methods and valuers are provided at Note 7.

6.4 **Depreciation of Non-Current Assets**

Other than land, all infrastructure, property, plant and equipment assets recognised are systematically depreciated over their useful lives on a straight-line basis, which in the opinion of Council, best reflects the consumption of the service potential embodied in those assets.

Major depreciation periods for each class of asset are shown below. Depreciation periods for infrastructure assets have been estimated based on the best information available to Council, but appropriate records covering the entire life cycle of these assets are not available, and extreme care should be used in interpreting financial information based on these estimates.

Plant,	Furniture	& Eq	quipment
--------	-----------	------	----------

Office Equipment	3 to 5 years
Office Furniture	10 to 25 years
Vehicles and Road-making Equip	5 to 20 years

Reticulation Pipes – other	25 to 75 years

6.5 **Impairment**

Assets that have an indefinite useful life are not subject to depreciation and are reviewed annually for impairment. Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (which is the higher of the present value of future cash outflows or value in use).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies

For assets whose future economic benefits are not dependent on the ability to generate cash flows, and where the future economic benefits would be replaced if Council were deprived thereof, the value in use is the depreciated replacement cost. In assessing impairment for these assets, a rebuttable assumption is made that the current replacement cost exceeds the original cost of acquisition.

Where an asset that has been revalued is subsequently impaired, the impairment is first offset against such amount as stands to the credit of that class of assets in the Asset Revaluation Reserve, any excess being recognised as an expense.

6.6 Borrowing Costs

Borrowing costs in relation to qualifying assets (net of offsetting investment revenue) have been capitalised in accordance with the allowed alternative treatment in AASB 1023 "Borrowing Costs". The amounts of borrowing costs recognised as an expense or as part of the carrying amount of qualifying assets are disclosed in Note 3, and the amount (if any) of interest revenue offset against borrowing costs in Note 2.

6.7 Land under Roads

Pursuant to AASB 1051, Council has elected not to value Land under Roads.

7 Payables

7.1 Goods & Services

Creditors are amounts due to external parties for the supply of goods and services and are recognised as liabilities when the goods and services are received. Creditors are normally paid 30 days after the month of invoice. No interest is payable on these amounts.

7.2 Payments Received in Advance & Deposits

Amounts received from external parties in advance of service delivery, and security deposits held against possible damage to Council assets, are recognised as liabilities until the service is delivered or damage reinstated, or the amount is refunded as the case may be.

8 Borrowings

Loans are carried at their principal amounts which represent the present value of future cash flows associated with servicing the debt. Interest is accrued over the period to which it relates, and is recorded as part of "Payables". Interest free loans are carried at their nominal amounts; interest revenues foregone by the lender effectively being a reduction of interest expense in the period to which it relates.

9 Employee Benefits

9.1 Salaries, Wages & Compensated Absences

Liabilities for employees' entitlements to salaries, wages and compensated absences expected to be paid or settled within 12 months of reporting date are accrued at nominal amounts (including payroll based oncosts) measured in accordance with AASB 119.

Liabilities for employee benefits not expected to be paid or settled within 12 months are measured as the present value of the estimated future cash outflows (including payroll based oncosts) to be made in respect of services provided by employees up to the reporting date.

Council does not make payment for untaken sick leave.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies

9.2 Superannuation

The Council makes employer superannuation contributions in respect of its employees to the Local Government Superannuation Scheme. The Scheme has two types of membership, each of which is funded differently. No changes in accounting policy have occurred during either the current or previous reporting periods.

Details of the accounting policies applied and Council's involvement with the schemes are reported in Note 18

10 Construction Contracts

Construction works undertaken by Council for third parties are generally on an agency basis where the third party reimburses Council for actual costs incurred, and usually do not extend beyond the reporting period. As there is no profit component, such works are treated as 100% completed. Reimbursements not received are recognised as receivables and reimbursements received in advance are recognised as "payments received in advance".

11 Leases

Lease arrangements have been accounted for in accordance with Australian Accounting Standard AASB117. In respect of finance leases, where Council substantially carries all of the risks incident to ownership, the leased items are initially recognised as assets and liabilities equal in amount to the present value of the minimum lease payments.

The assets are disclosed as assets under lease, and are amortised to expense over the period during which the Council is expected to benefit from the use of the leased assets. Lease payments are allocated between interest expense and reduction of the lease liability, according to the interest rate implicit in the lease.

In respect of operating leases, where the lessor substantially retains all of the risks and benefits incident to ownership of the leased items, lease payments are charged to expense over the lease term.

12 GST Implications

In accordance with UIG Abstract 1031 "Accounting for the Goods & Services Tax"

- Receivables and Creditors include GST receivable and payable.
- Except in relation to input taxed activities, revenues and operating expenditures exclude GST receivable and payable.
- > Non-current assets and capital expenditures include GST net of any recoupment.
- > Amounts included in the Statement of Cash Flows are disclosed on a gross basis.

13 Pending Accounting Standards

Certain new accounting standards and UIG interpretations have been published that are not mandatory for the 30 June 2014 reporting period and have not been used in preparing these reports.

- AASB 9 Financial Instruments (01 January 2017)
- ➤ AASB 1055 Budgetary Reporting (01 July 2014)
- AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 [AASBs 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 120, 121, 127, 128, 131, 132, 136, 137, 139, 1023, & 1038 and Interpretations 2, 5, 10, 12, 19, & 127]

Note 1 - Significant Accounting Policies

Council is of the view that none of the above new standards or interpretations will affect any of the amounts recognised in the financial statements, but that they may impact certain information otherwise disclosed.

The Australian Accounting Standards Board is currently reviewing AASB 1004 Contributions. It is anticipated that the changes resulting from this review may have a material effect on the timing of the recognition of grants and contributions, but the financial consequences cannot be estimated until a revised accounting standard is issued.

Note 7 - INFRASTRUCTURE, PROPERTY, PLANT & EQUIPMENT

Valuation of Assets

General Valuation Principles

Accounting procedure: Upon revaluation, the current new replacement cost and accumulated depreciation are re-stated such that the difference represents the fair value of the asset determined in accordance with AASB 13 Fair Value Measurement: accumulated depreciation is taken to be the difference between current new replacement cost and fair value. In the case of land, fair value is taken to be the current replacement cost.

Highest and best use: For land which Council has an unfettered right to sell, the "highest and best use" recognises the possibility of the demolition or substantial modification of some or all of the existing buildings and structures affixed to the land.

Much of the land under Council's care and control is Crown land or has been declared as community land under the provisions of the Local Government Act 1999. Other types of restrictions also exist.

For land subject to these restrictions, the highest and best use is taken to be the "highest and best use" available to Council, with a rebuttable presumption that the current use is the "highest and best use". The reason for the current use of a large proportion of Council's assets being other than the "highest and best use" relates to Council's principal role as the provider of services to the community, rather than the use of those assets for the generation of revenue.

For buildings and other structures on and in the land, including infrastructure, "highest and best use" is determined in accordance with the land on and in which they are situated.

Transition to AASB 13: The requirements of AASB 13 Fair Value Measurement have been applied to all valuations undertaken since 1 July 2013 as shown by the valuation dates by individual asset classes below.

Fair value hierarchy level 2 valuations: Certain land, and the buildings and structures thereon, are shown above as being based on fair value hierarchy level 2 valuation inputs. They are based on prices for similar assets in an active market, with directly or indirectly observable adjustments for specific advantages or disadvantages attaching to the particular asset.

Fair value hierarchy level 3 valuations of land: Valuations of Crown land, community land and land subject to other restrictions on use or disposal, shown above as being based on fair value hierarchy level 3 valuation inputs, are based on prices for similar assets in an active market, but include adjustments for specific advantages or disadvantages attaching to the particular asset that are not directly or indirectly observable in that market, or the number and / or amount of observable adjustments of which are so great that the valuation is more fairly described as being based on level 3 valuation inputs.

Fair value hierarchy level 3 valuations of buildings, infrastructure and other assets: There is no known market for these assets and they are valued at depreciated current replacement cos t. This method involves:

The determination of the cost to construct the asset (or its modern engineering equivalent) using current prices for materials and labour, the quantities of each being estimated based on recent experience of this or similar Councils, or on industry construction guides where these are more appropriate.

The calculation of the depreciation that would have accumulated since original construction using current estimates of residual value and useful life under the prime cost depreciation method adopted by Council.

This method has significant inherent uncertainties, relying on estimates of quantities of materials and labour, residual values and useful lives, and the possibility of changes in prices for materials and labour, and the potential for development of more efficient construction techniques.

Major depreciation periods and capitalisation thresholds are detailed in Note 1.

Plant, Furniture & Equipment

Pursuant to Council's election, these assets are recognised on the cost basis.

Land, Land Improvements, Buildings & Other Structures

Council being of the opinion that it is not possible to attribute a value sufficiently reliably to qualify for recognition, land under roads has not been recognised in these reports. Land acquired for road purposes during the year is initially recognised at cost, but transferred to fair value at reporting date, effectively writing off the expenditure.

Pursuant to Council's election, freehold land and land over which Council has control, but does not have title, is recognised on the cost basis. No capitalisation threshold is applied to the acquisition of land or interests in land.

Land improvements, including bulk earthworks with an assessed unlimited useful life, are recognised on the cost basis, deriving from a valuation at 01 July 2013 at current replacement cost. Additions are recognised at cost.

Estimated future costs of reinstatement of land, capitalised in accordance with AASB 116.16(c), are reviewed annually (see Note 1) and depreciated over the estimated remaining life of the relevant asset.

Pursuant to Council's election, buildings and other structures are recognised at fair value being written down replacement cost.

Infrastructure

Transportation assets were valued by Council at written down current replacement cost during the reporting period ended 30 June 2014 and pursuant to Council's election are disclosed at deemed cost. All acquisitions made after the respective dates of valuation are recorded at cost.

Stormwater drainage infrastructure was valued by Council as at 30 June 2014 at written down current replacement cost, based on actual costs incurred during the reporting period ended 30 June 2014 and pursuant to Council's election are disclosed at deemed cost. All acquisitions made after the respective dates of valuation are recorded at cost.

Community wastewater management system infrastructure was valued by Council at written down current replacement cost during the reporting period ended 30 June 2014 and pursuant to Council's election are disclosed at deemed cost. All acquisitions made after the respective dates of valuation are recorded at cost.

All other assets

Pursuant to Council's election, these assets are recognised on the cost basis. Library books and other lending materials are capitalised in bulk, and written out when fully depreciated.

Net Fair Value

All carrying values approximate fair value for all recognised financial instruments. There is no recognised market for the financial assets of the Council.

Risk Exposures

Credit Risk represents the loss that would be recognised if counterparties fail to perform as contracted. The maximum credit risk on financial assets of the Council is the carrying amount, net of any allowance for doubtful debts. All Council investments are currrently made with the Local Government Finance Authority (LGFA) and are guaranteed by the SA Government. Except as detailed in Notes 5 & 6 in relation to individual classes of receivables, exposure is concentrated within the Council's boundaries, and there is no material exposure to any individual debtor.

Market Risk is the risk that fair values of financial assets will fluctuate as a result of changes in market prices. All of Council's financial assets are denominated in Australian dollars and are not traded on any market, and hence neither market risk nor currency risk apply.

Liquidity Risk is the risk that Council will encounter difficulty in meeting obligations with financial liabilities. In accordance with the model Treasury Policy (LGA Information Paper 15), liabilities have a range of maturity dates. Council also has available a range of bank overdraft and standby borrowing facilities that it can access.

Interest Rate Risk is the risk that future cash flows will fluctuate because of changes in market interest rates. Council has a balance of both fixed and variable interest rate borrowings and investments. Cash flow fluctuations are managed holistically in seeking to minimise interest costs over the longer term in a risk averse manner.

The Flinders

The Flinders Ranges Council

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 18 – SUPERANNUATION

The Flinders Ranges Council makes employer superannuation contributions in respect of its employees to the Local Government Superannuation Scheme (the Scheme). The Scheme has two types of membership, each of which is funded differently. Prior to 24th November 2009, permanent and contract employees of the South Australian Local Government sector had the option to contribute to Marketlink and/or Salarylink. Since that date and all other employees (including casuals) have all contributions allocated to Marketlink only.

Marketlink (Accumulation Fund) Members

Marketlink receives both employer and employee contributions on a progressive basis. Employer contributions are based on a fixed percentage of employee earnings in accordance with superannuation guarantee legislation (9.25% in 2013-14 for Marketlink members and 3.00% for Salarylink members; 9.25% and 3.00% respectively in 2012-13). No further liability accrues to the employer as the superannuation benefits accruing to employees are represented by their share of the net assets of the Fund.

Salarylink (Defined Benefit) Members

Salarylink is a defined benefit scheme where the benefit payable is based on a formula determined by the member's contribution rate, number of years of contribution and final average salary. Council makes employer contributions to Salarylink as determined by the Scheme's Trustee based on advice from the Scheme's Actuary. The rate for the 2013-14 year was 6.3% (6.3% in 2012-13) of "superannuation" salary. Given that Employer contributions are based on a fixed percentage of employee earnings in accordance with superannuation guarantee legislation, the remaining 3.25% for Salarylink members is allocated to their Marketlink account. Employees also make member contributions to the Fund. As such, assets accumulate in the Fund to meet the member's benefits, as defined in the Trust Deed, as they accrue.

The Salarylink Plan is a multi-employer sponsored plan. As the Fund's assets and liabilities are pooled and are not allocated by employer, the Actuary is unable to allocate benefit liabilities, assets and costs between employers. As provided by AASB 119.32(b), Council does not use defined benefit accounting for these contributions.

In September and October 2009 a series of workshops were held to discuss the future of the defined benefit arrangements (Salarylink) of Local Super. Councils were asked to consider options relating to the continuation of Salarylink. The key question was whether to keep Salarylink open or should Salarylink be closed to new entrants. The councils were concerned about the risk associated with maintaining an open defined benefit scheme, particularly to ensure that the council contribution rate to superannuation remained stable over time. The response from councils was that approximately 75% voted for Salarylink to be closed to new entrants.

At the LGA State Executive meeting held on Thursday 19 November 2009, it was decided to adopt Option 3 ie to close Salarylink to new entrants, whilst honouring the obligations to existing Salarylink members. The Local Super Board amended the rules of the scheme, to close Salarylink to new entrants, at the Board meeting on held on Tuesday 24 November 2009.

The most recent actuarial investigation was conducted by the Scheme's actuary, A C Miller, FIAA, of Russell Employee Benefits Pty Ltd as at 30 June 2012. The Trustee has determined that the current funding arrangements are adequate for the expected Salarylink liabilities. However, future financial and economic circumstances may require changes to Council's contribution rates at some future time.

for the year ended 30 June 2014

Note 21 - CONTINGENCIES & ASSETS & LIABILITIES NOT RECOGNISED IN THE STATEMENT OF FINANCIAL POSITION

The following assets and liabilities do not qualify for recognition in the Balance Sheet but knowledge of those items is considered relevant to user of the financial report in making and evaluating decisions about the allocation of scarce resources.

1. LAND UNDER ROADS

As reported elsewhere in these Statements, Council is of the opinion that it is not possible to attribute a value sufficiently reliably for these assets to qualify for recognition, and accordingly land under roads has not been recognised in these reports. Land acquired for road purposes during the year is initially recognised at cost, but transferred to fair value at reporting date, effectively writing off the expenditure.

At reporting date, Council controlled 1,263 km of road reserves of average width 10 metres.

2. POTENTIAL INSURANCE LOSSES

Council is a multi-purpose organisation providing a large range of building, parks infrastructure, playgrounds and other facilities accessible to the public. At any time, it is likely that claims will have been made against Council that remain unsettled.

Council insures against all known insurable risks using a range of insurance policies, each of which is subject to a deductible "insurance excess", the amount of which varies according to the class of insurance.

Council has recognised the potential losses arising from claims known at reporting date based on average historical net cost (including insurance excess) of similar types of claims. Other potential claims not reported to Council may have existed at reporting date.

3. BANK GUARANTEES

Council has not guaranteed any loans or other banking facilities on behalf of community organisations and sporting bodies as at reporting date.

4. LEGAL EXPENSES

Council is the planning consent authority for its area under the Development Act 1993 (as amended). Pursuant to that Act, certain persons aggrieved by a planning decision of the Council may appeal. It is normal practice that parties bear their own legal costs. At the date of these reports, Council had no notices of appeal against planning decisions made prior to reporting date. All known costs have been recognised, but the amount of further costs cannot be known until the appeals are determined.

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

STATEMENT BY AUDITOR

I confirm that, for the audit of the financial statements of The Flinders Ranges Council for the year ended 30 June 2014, I have maintained my independence in accordance with the requirements of APES 110 – Code of Ethics for Professional Accountants, Section 290, published by the Accounting Professional and Ethical Standards Board, in accordance with the Local Government Act 1999 and the Local Government (Financial Management) Regulations 2011 made under that Act.

This statement is prepared in accordance with the requirements of Regulation 22 (5) Local Government (Financial Management) Regulations 2011.

AUDITOR

Dated this I day of October 2014

IAN G McDONALD FCA ABN: 13 550 494 869

INDEPENDENT AUDIT REPORT TO THE MEMBERS OF THE FLINDERS RANGES COUNCIL

I have audited the accompanying financial report of The Flinders Ranges Council which comprises the balance sheet as at 30 June 2014 and the statement of comprehensive income, statement of changes in equity, cash flow statement, summary of significant accounting policies, other explanatory notes and the certification of financial statement for the year ended 30 June 2014.

Chief Executive Officer's Responsibility for the Financial Report

The Chief Executive Officer is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Local Government Act 1999 together with the Local Government (Financial Management) Regulations 2011. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based on my audit. I have conducted my audit in accordance with Australian Auditing Standards. These Auditing Standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

In conducting my audit I followed applicable independence requirements of Australian professional and ethical pronouncements and the Local Government Act 1999.

Auditor's Opinion

In my opinion, the financial report presents fairly, in all material respects, the financial position of The Flinders Ranges Council as of 30 June 2014, and of its financial performance and its cash flows for the year then ended in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Local Government Act 1999 together with the Local Government (Financial Management) Regulations 2011.

The Central Local Government Region of South Australia

The Central Local Government Region was established in 1998 under Section 200 of the Local Government Act 1934 as a controlling authority. It now continues in existence and as a regional subsidiary of its member Councils under Part 2 of Schedule 2 of the Local Government Act 1999 by virtue of the provisions of Section 25 of the Local Government (Implementation) Act 1999.

The Central Region is established to:

- ✓ undertake co-ordinating, advocacy and representational roles on behalf of its Constituent Councils at a regional level
- ✓ facilitate and co-ordinate activities of local government at a regional level related to community and economic development with the object of achieving improvement for the benefit of the communities of its Constituent Councils
- ✓ develop, encourage, promote, foster and maintain consultation and co-operation and to strengthen the representation and status of local government when dealing with other governments, private enterprise and the community
- ✓ develop further co-operation between its Constituent Councils for the benefit of the communities of the region
- ✓ develop and manage policies which guide the conduct of programs and projects in the region with the objective of securing the best outcomes for the communities of the region
- ✓ undertake projects and activities that benefit the region and its communities
- ✓ associate, collaborate and work in conjunction with other regional local government bodies for the advancement of matters of common interest.

The Central Region is a body corporate and is governed by a Board of Management which has the responsibility to manage all activities of the Central Region and ensure that the Central Region acts in accordance with its Charter. The Board has 15 members, comprising one representative elected from each constituent Council:

- A Barossa Council
- A District Council of Barunga West
- ▲ Clare & Gilbert Valleys Council
- △ District Council of The Copper Coast
- ▲ The Flinders Ranges Council
- Regional Council of Goyder

- A District Council of Mount Remarkable
- Northern Areas Council
- △ District Council of Orroroo/Carrieton
- A District Council of Peterborough
 - A Port Pirie Regional Council
 - Wakefield Regional Council
 - A Yorke Peninsula Council

The Region's area spans the Barossa through the Clare Valley, Yorke Peninsula, Adelaide Plains, Mid and Upper North districts through to the Flinders Ranges, covering 27 per cent of the incorporated area of the State and comprises some 27 per cent of the State's population outside Adelaide.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of Preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards as they apply to not-for-profit entities, other authoritative pronouncements of the Australian Accounting Standards Board, Interpretations and relevant South Australian legislation.

The financial report was authorised for issue by certificate under regulation 14 of the *Local Government* (Financial Management) Regulations 2011 dated (9th August 2014)

The preparation of financial statements in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates, and requires management to exercise its judgement in applying the Region's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are specifically referred to in the relevant sections of this Note.

All amounts in the financial statements have been rounded to the nearest dollar (\$).

Historical Cost Convention

Except as stated below, these financial statements have been prepared in accordance with the historical cost convention.

- 12. Wakefield Regional Council
- 14. District Council of the Yorke Peninsula, and

All funds received and expended by the Region have been included in the Financial Statements forming part of this Financial Report.

1.3 Income recognition

Income is measured at the fair value of the consideration received or receivable. Income is recognised when the Region obtains control over the assets comprising the income, or when the amount due constitutes an enforceable debt, whichever first occurs.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

Where grants, contributions and donations recognised as incomes during the reporting period were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the amounts subject to those undischarged conditions are disclosed in these notes. Also disclosed is the amount of grants, contributions and receivables recognised as incomes in a previous reporting period which were obtained in respect of the Region's operations for the current reporting period.

1.4 Cash, Cash Equivalents and other Financial Instruments

Cash Assets include all amounts readily convertible to cash on hand at the Region's option with an insignificant risk of changes in value with a maturity of three months or less from the date of acquisition.

Receivables for generally unsecured and do not bear interest. All receivables are reviewed as at the reporting date and adequate allowance made for amounts the receipt of which is considered doubtful.

All financial instruments are recognised at fair value at the date of recognition. A detailed statement of the accounting policies applied to financial instruments forms part of Note 13.

1.5 Infrastructure, Property, Plant & Equipment

All non-current assets purchased are capitalised as the expenditure is incurred and depreciated as soon as the asset is held "ready for use". All assets are recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition.

Assets with an economic life in excess of one year are only capitalised where the cost of acquisition exceeds materiality thresholds established by the Region for each type of asset. In determining (and in annually reviewing) such thresholds, regard is had to the nature of the asset and its estimated service life. Examples of capitalisation thresholds applied during the year are as follows:

Office Furniture & Equipment \$1,000 Motor Vehicles, Other Plant & Equipment \$1,000

All material asset classes are revalued on a regular basis such that the carrying values are not materially different from fair value. Plant and equipment assets recognised are systematically depreciated over their useful lives on a straight-line basis which, in the opinion of the Region, best reflects the consumption of the service potential embodied in those assets.

Depreciation methods, useful lives and residual values of classes of assets are reviewed annually.

Major depreciation periods for each class of asset are shown in Note 7.

1.6 Payables

Creditors are amounts due to external parties for the supply of goods and services and are recognised as liabilities when the goods and services are received. Creditors are normally paid 30 days after the month of invoice. No interest is payable on these amounts.

Amounts received from external parties in advance of service delivery are recognised as liabilities until the service is delivered or damage reinstated, or the amount is refunded as the case may be.

2 Employee Benefits

2.1 Salaries, Wages & Compensated Absences

As at 30th June 2014 the Region does not have any employees and hence there are no employee provisions at the reporting date.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

2.2 Superannuation

The Region made employer superannuation contributions in respect of its employee to the Statewide Superannuation Scheme until the termination date of 31st March 2014.

3 GST Implications

In accordance with UIG Abstract 1031 "Accounting for the Goods & Services Tax"

- > Receivables and Creditors include GST receivable and payable.
- Except in relation to input taxed activities, revenues and operating expenditures exclude GST receivable and payable.
- Non-current assets and capital expenditures include GST net of any recoupment.
- Amounts included in the Statement of Cash Flows are disclosed on a gross basis.

4 Pending Accounting Standards

Certain new accounting standards and UIG interpretations have been published that are not mandatory for the 30 June 2012 reporting period and have not been used in preparing these reports.

Net Fair Value

All carrying values approximate fair value for all recognised financial instruments. There is no recognised market for the financial assets of the Region.

Risk Exposures

Credit Risk represents the loss that would be recognised if counterparties fail to perform as contracted. The maximum credit risk on financial assets of the Region is the carrying amount, net of any allowance for doubtful debts. All the Region's investments are made with the SA Local Government Finance Authority and are guaranteed by the SA Government. Except as detailed in Note 5 in relation to individual classes of receivables, exposure is concentrated within the Region's boundaries, and there is no material exposure to any individual debtor.

Market Risk is the risk that fair values of financial assets will fluctuate as a result of changes in market prices. All of the Region's financial assets are denominated in Australian dollars and are not traded on any market, and hence neither market risk nor currency risk apply.

Liquidity Risk is the risk that the Region will encounter difficulty in meeting obligations with financial liabilities. In accordance with the model Treasury Management Policy (LGA Information Paper 15), liabilities have a range of maturity dates.

Interest Rate Risk is the risk that future cash flows will fluctuate because of changes in market interest rates. Cash flow fluctuations are managed holistically in seeking to minimise interest costs over the longer term in a risk averse manner.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 16 - UNIFORM PRESENTATION OF FINANCES

The following is a high level summary of both operating and capital investment activities of the Region prepared on a simplified Uniform Presentation Framework basis.

All Councils in South Australia have agreed to summarise annual budgets and long-term financial plans on the same basis.

The arrangements ensure that all Councils & subsidiaries provide a common 'core' of financial information, which enables meaningful comparisons of each Council's finances

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 18 - SUPERANNUATION

The Region makes employer superannuation contributions in respect of its employee to Statewide Super (formerly Local Government Superannuation Scheme). There are two types of membership, each of which is funded differently. Permanent and contract employees of the South Australian Local Government sector with Salarylink benefits prior to 24 November 2009 have the option to contribute to Marketlink and/or Salarylink. All other employees (including casuals) have all contributions allocated to Marketlink.

Marketlink (Accumulation Fund) Members

Marketlink receives both employer and employee contributions on a progressive basis. Employer contributions are based on a fixed percentage of employee earnings in accordance with superannuation guarantee legislation (9.25% in 2013/14; 9% in 2012/13). No further liability accrues to the Region as the superannuation benefits accruing to employees are represented by their share of the net assets of the Fund.

Salarylink (Defined Benefit Fund) Members

Salarylink is a defined benefit scheme where the benefit payable is based on a formula determined by the member's contribution rate, number of years and level of contribution and final average salary. The Region does not make employer contributions to Salarylink.

Note 19 - JOINT VENTURES & ASSOCIATED ENTITIES

An associate is an entity, including an unincorporated entity such as a partnership, over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture.

A joint venture is a contractual agreement whereby two or more parties undertake an economic activity that is subject to joint control

The Region has no interest in Joint Ventures or Associated Entities.

Although the Region itself is a Regional Subsidiary established by the 15 Member Councils (as per Note 1), it is not considered to be an associate of any of the individual Councils as no one Council has significant influence. As such, equity accounting procedures are not used by the individual Councils. It is likely that each Council's interest in the Regional Subsidiary is non-material and as such, it is appropriate for a Council to write off its annual contribution as an expense.

INDEPENDENT AUDIT REPORT TO THE MEMBERS OF THE CENTRAL LOCAL GOVERNMENT REGION OF SA INC

I have audited the accompanying financial report of the Central Local Government Region of SA Inc which comprises the balance sheet as at 30 June 2014 and the statement of comprehensive income, statement of changes in equity, cash flow statement, summary of significant accounting policies, other explanatory notes and the certification of financial statement for the year ended 30 June 2014.

Chief Executive Officer's Responsibility for the Financial Report

The Chief Executive Officer is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Local Government Act 1999 together with the Local Government (Financial Management) Regulations 2011. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based on my audit, I have conducted my audit in accordance with Australian Auditing Standards. These Auditing Standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

In conducting my audit I followed applicable independence requirements of Australian professional and ethical pronouncements and the Local Government Act 1999.

Auditor's Opinion

In my opinion, the financial report presents fairly, in all material respects, the financial position of the Central Local Government Region of SA Inc. as of 30 June 2014, and of its financial performance for the year then ended in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Local Government Act 1999 together with the Local Government (Financial Management) Regulations 2011.
