If it is under 25 at that time (7.00pm), the call will be made that the pool will not be open the following day. This will then be communicated via the Hawker pool Facebook page. Please note though that if the forecast subsequently changes or is reviewed upwards, e.g. the following morning, the pool will stay closed. It is not anticipated that this situation will occur very often, if at all, but we need to be quite clear and rigid in terms of making the call at 7.00pm the night before and not changing it so as not to mess anyone around.

The Hawker Swimming Pool will be hosting the Holiday Swim program from **6-10 January 2025** run by Royal Life Saving SA.

LOCAL TELECOMMUNICATIONS
The Hawker Community Development Board has begun the process of lobbying relevant bodies, including telecommunications companies, Optus and Telstra, regarding improved reliability in the event of power failures. The recent power outage highlighted serious weaknesses in the existing infrastructure, which clearly need to be addressed as a matter of urgency. We will keep community members informed on this matter.

Accreditation

Earlier this year the Hawker Memorial Hospital passed accreditation and we were privileged to receive our formal certificate on the 11th October. Craig Packard came to Hawker to thank the team for their hard work and to present the certificate which is now on display in the hospital.

Student Beccy

Beccy has just spent 6 weeks with us on placement for her Registered Nurse studies. Beccy quickly became part of the team and stole several of the resident's hearts.

Thank you Beccy for your time with us, we wish you all the best with your studies and hope you will remember us when you are qualified ;-)

Resident Happenings

We have had a quieter month than usual.

While we did attempt a barbecue for the Grand Final the weather certainly had other ideas.

We had surprising results with the footy tipping with some rear runners coming up to win.

Medical Centre News

Nurse Penny will be available on Thursdays 7th and 21st November for those between 45 and 49 and over 70s who are eligible for a health check. The medical centre will take appointments.

CaFHS will be here for children checks on Monday November 18th.

Meet Emily

Meet Emily, she has joined us from Flinders Private.

Emily has moved here with her husband John and he is working at the school as SSO.

Emily had the advantage of knowing some of the nursing staff as she had previously had a look around the area.

Emily is looking forward to expanding her nursing knowledge while she is with us.

CELEBRATING 100 YEARS

About 25 people gathered on Wednesday October 23rd to celebrate the 100th birthday of the Hawker Uniting Church Fellowship.

Our new banner designed and made by Miriam Morgan was unveiled, then everyone joined in a rousing rendition of How Great Thou Art to begin the service.

Our Frontier Services Bush Chaplain Sunny brought us a short devotion before the Hawker Singers sang The Place Where we Worship and Bless This House.

A lot of time and effort had gone into producing a booklet entitled The First Hundred Years which Jenny McInnis introduced and were available for all to take home. This booklet outlined the history of the Fellowship as well as including recipes and photos.

Jim Hayward as guest speaker kept us entertained with excerpts from old recipe books as he reminded us of the recipe of life including generosity. He had an old well used copy of the CWA cake recipe book with recipes from former ladies of the district.

Rev Sue Ellis representing Fellowships South Australia brought us greetings and a number of apologies were read out.

The beautiful cake made and decorated by Stef Teague was cut by Jenny McInnis.

Afternoon tea was served by Robyn McInnis ably assisted by Ada and Eli from Kids Club while we all shared our memories.

Outback Ladies Muster

Hawker celebrated International Rural Women's Day in October in a big way with more than 90 women from across the SA Arid Lands region gathering for the Outback Ladies Muster.

Delivered by the SA Arid Lands Landscape Board and funded by the Foundation for Rural and Regional Renewal, the event offered a mix of speakers, workshops and professional development sessions designed specifically for women.

The Muster began with a canape evening and a couch conversation at Flinders Food Co, where locals Louise Lynch and Kellie Zadow were joined by Petie Rankin from The Twins station to discuss drought and difficult times and the ways they have overcome them.

One of the most popular sessions was Keynote speaker Mia Handshin, a qualified lawyer, newspaper columnist, federal political candidate and the youngest woman to chair the SA Environment Protection Authority, who spoke about power pausing and the importance of taking time for yourself.

Heidi Wright from Wright Social discussed social media promotion, Emily Riggs from Iris and Wool provided an insight to her Burra-based business and Bridget Johns shared organisational tips that could help women get back some time in their day.

Workshops were also popular, with Markus Hammence sharing tips to upcycle plants, Jaquarra Chapman leading a pot plant painting workshop, Mija Reynolds providing colour and styling tips and Gaye Keurschner baking up a bread storm.

A formal dinner at Rawnsley Park Station wound up the event over a lamb inspired dinner, with entertainment provided by Jaz Kimber.

The Outback Ladies Muster was designed by women in the region for women, and in turn supported the Hawker community and pastoral properties that had been impacted by drought. Watch the video online at https://youtu.be/qeAEbBR2yKQ or follow the QR code

Early wool packs were made from jute, prior to the use of synthetic fibres. Jute packs were relatively heavy, weighing several kilograms each. Jute wool bales, were hand sewn to close them.

In the past Willipa was owned by Andrew Tennant, then Richard Hawker and has now been in the Hilder family for quite a few years. Michael McAuley's maternal grandfather, John Thomas Ferguson, managed Willipa for a number of years. J.T. Ferguson's son John Forsyth Ferguson followed his father as manager. Michael thinks that the next manager at Willipa was Allan McPherson.

THE HAWKER WALKERS...

A group of 6 joined in the walk to Box Gorge, Worumba, on September 23rd – a warmish day, so already the lookout/lookdown - knowing this would be our last gathering to walk for this season.

Off we go!

And we've got our fly nets... Christine, Kaye, Wendy, Maggie, Mary and Jane

< First Stop – a land slip...

...Second stop - is that a recent rock slip? >

< Look out for that tree – Phew, did not stop you!

Stop three - is that a recent slip with an even bigger rock >

< Is that a Mary slip?

But we keep on going – follow the lady and her dog!

Next stop – lunch… are there still 6 of us?

Then it's off again, with lots of energy stocks – is this called 'for when the going gets tough?' Going up! >

< But the tough do get going!

And the tougher keep going! >

Box Gorge is impressive, but you'll have to see Mary and Christine's photos – I couldn't get them here!!

< We did get back down…

And returned with a bit of a spring in our steps… >

To our final stop!!

See you again in April…

Thanks Mary, Jane and everyone involved in 2024

High quality, pure water on tap...

it's easy with an RO system designed, built and installed by Rowater.

Rowater's fully automatic membrane desalination systems are ideal for rural locations where fresh potable water with low salt content is required. Whether it's for your homestead gardens, stock, disinfection, washing or for drinking, a Rowater RO system will provide a constant and reliable supply of clean, fresh water.

Rowater specialise in the design and construction of water treatment systems for the land - along with their ongoing maintenance, including:

- Reverse osmosis (RO) systems to ensure high quality water
- Water softeners to prolong equipment life
- Filtration systems – various media
- Storage tanks and pumps

As well as servicing rural properties, we are able to quote, supply and implement upgrades to suit your specific water treatment requirements, whatever and wherever they are.
